

FEDERICO VALSECCHI

Unity Developer · Multiplayer & Gameplay Programmer (C#)

London, United Kingdom · fede_v@outlook.com · +44 7376 743968 · github.com/fedev48 · falsecchi.com

SUMMARY

Unity developer with commercial C# experience building gameplay systems across shipped and live projects. Shipped commercial mobile titles, and authors and teaches the multiplayer module of a university game development degree. Comfortable across gameplay, networking, with a background in game audio design and audio implementation.

WORK EXPERIENCE

Unity Developer *Dingaloo Studios (2024 – 2026)*

- Core gameplay and netcode developer on CrossLocked, a live multiplayer title on iOS and Android, re-architecting the netcode from its original topology to dedicated servers and implementing gameplay features with Netcode for GameObjects.
- Developed AR game prototypes integrating backend services for event-driven interaction and real-time updates.

Module Leader, Multiplayer Game Development *Universidad Tecnológica Nacional (UTN), Argentina (remote, 2026-Present)*

Authored, teach, and grade student projects in the multiplayer game development module of a university technical degree, covering Unity's networking stack, including:

- Netcode for GameObjects and Netcode for Entities.
- Unity Gaming Services, including Lobby, Relay and Matchmaker.
- Dedicated server hosting with PlayFab, including server build creation and deployment.
- Profiling and optimisation for networked clients and servers.
- Network topologies and latency mitigation systems.

ADDITIONAL EXPERIENCE

Unity Developer - Technical Sound Designer (external contractor) *Noni Games 2023 – 2025*

- Built C# gameplay systems including scene transitions, player movement, trading, weather, inventory and interaction/dialogue systems.
- Designed and implemented adaptive audio (SFX and music) using FMOD and Unity's native audio engine for WebGL games.

Live Sound Engineer (external contractor) *SJARK (2025 - Present)*

- A1 and A2 engineering for events and press conferences on match days at West Ham United FC.
- A2 for live music events, handling location capture and live mixing under time pressure.

EDUCATION

BA in Music and Sound Production, First Class BIMM, United Kingdom 2019 – 2023

Video Game Development Diploma UTN, Argentina 2023

SKILLS & CERTIFICATIONS

Game Development C#, Unity, DOTS, Netcode for GameObjects and Netcode for Entities, UGS.

Audio FMOD, Unity native audio, sound design and adaptive music.

Tools Pro Tools, Ableton Live, Git, PlasticSCM.

Languages Spanish (native), English (C1, IELTS Academic).
